

Do your students struggle with self-regulation?

Are your staff busy reacting to disruptive behaviours?

Do you want your students to meet you halfway as willing learners?

Reboot gives you solutions!

The Reboot 7-Step Framework gives you easy-to-use tools and classroom strategies that effectively create positive behaviours and address the impact of childhood adversity and complex trauma. Discover tools to support individuals and create happy and calm group engagement. Reboot integrates the latest multidisciplinary findings from neurology, traumatology, developmental and education psychology, social and positive psychology, social change theory, contemplative science and mindfulness and yoga to access the whole-brain for sustainable life change.

Easy-to-implement, practical tools that integrate neuroscience, SEL and positive psychology into the fabric of the classroom

Reboot is a whole-of-school framework that provides staff and students with a common set of expectations and proven tools that proactively and strategically create cultural and behavioural change in response to challenging behaviours and students' disengagement from learning. Reboot was created by Sarah Ralston over 10 years of supporting young people, staff and families to address the impact of childhood adversity and trauma. Sarah has combined her experience as a youth worker, teacher and counsellor with studies in psychology, traumatology, neuroscience, kinesiology, counselling, yoga and mindfulness. Reboot's neuro-science based training, curriculum and strategies integrate social and emotional wellness into the fabric of daily school life to engage the most challenging students, and build life skills for all students to thrive. Reboot tools work for all ages, staff and students, in primary and secondary schools, youth engagement programs and out-of-home care.
