

Do you struggle with challenging behaviours and disengaging students?

Every young person needs an education, but some struggle to engage in learning. Consistent disengagement and challenging behaviour leave staff disheartened and students at risk of failure. The 7-Step Reboot Framework provides primary and secondary schools with practical tools to develop positive behaviour and build engagement and motivation.

WHAT

Reboot is an **innovative, proven framework** that integrates social and emotional wellness and learning tenacity into the fabric of schools, transforming trauma and creating environments where all students and staff thrive.

Reboot integrates the latest multidisciplinary research and evidence-based practice in traumatology, neuroscience, developmental, educational and positive psychology, social change theory, contemplative science and mindfulness. With the Reboot whole-brain teaching and learning approach you can:

- Improve student engagement, belonging and sense of safety
- Develop positive behaviours
- Reduce suspension and behaviour concerns
- Introduce the neuroscience of learning and whole-brain teaching
- Manage learning anxiety and create stress-aware classrooms with happier students and staff
- Inspire student confidence and goal setting
- Improve student self-regulation and emotional literacy
- Re-energise and inspire staff
- Develop self-agency and efficacy in students and staff

HOW REBOOT SCHOOL COLLECTIVE

Delivered at **individual, class and whole-of-school levels**, Reboot offers you the tools and strategies to build a school-wide culture of self-responsibility.

Embark on the Reboot journey as part of a community of innovative educators. Reboot school collective packages provide an opportunity for schools to work together to inspire and draw inspiration from like-minded educators. Each collective works with up to 10 schools and includes:

- 3 x 1-day training workshops
- Access to 2 x Collaboration days per school to support action planning and implementation
- 1 x whole-of-staff Twilight PD per school
- 12 months access to Reboot Resource Bank on-line clearinghouse of resources (Lesson Plans, How To Guides, Staff Meeting Sessions, etc)

Reboot is a whole-of-school framework that provides staff and students with a common language and proven tools that proactively and strategically create cultural and behavioural change in response to challenging behaviours and students' disengagement from learning. Reboot was created by Sarah Ralston over 10 years of supporting young people, staff and families to address the impact of childhood adversity and trauma. Sarah has combined her experience as a youth worker, teacher and counsellor with studies in psychology, traumatology, neuroscience, kinesiology, counselling, yoga and mindfulness. Reboot's neuro-science based training, curriculum and strategies integrate social and emotional wellness into the fabric of daily school life to engage the most challenging students, and build life skills for all students to thrive. Reboot tools work for all ages, staff and students, in primary, secondary and special schools, youth engagement programs and out-of-home care.

COLLECTIVE DATES

We currently have three collectives scheduled to commence in 2018/2019. Workshops days are:

Collective A: Brisbane North/North Coast

Workshop 1. 4th September 2018

Workshop 2. 31st October 2018

Workshop 3. 26th February 2019

Collective B: Brisbane South/Logan

Workshop 1. 22nd February 2019

Workshop 2. 10th May 2019

Workshop 3. 3rd September 2019

Collective C: Brisbane North/North Coast

Workshop 1. 12th February 2019

Workshop 2. 3rd May 2019

Workshop 3. 9th September 2019

Collective D: Bundaberg

Workshop 1. 15th February 2019

Workshop 2. 14th May 2019

Workshop 3. 13th September 2019

INVESTMENT IN REBOOT

Reboot collectives are capped at 90 participants to ensure that each school has time to develop action plans that are individualised to the needs of their environment.

Investment per participant: \$2,000

REBOOT WORKS:

"Thank you Sarah! You have given our school a sense of hope for the future and the tools to make it happen!"

Bronwyn Paxton, Principal, Caboolture Special School

"Since we started with Reboot, students are much calmer across the school. We've seen a reduction in suspensions and inappropriate playground behaviours and it has helped us to identify how we need to structure learning across the day."

Amanda Wicks, Principal, Caboolture East SS

"Powerful delivery. This has been training that fills the GAP for us. That's exciting."

Kyrra Mickelborough, Deception Bay SHS

"Valuable workshop giving me explicit tools and a common language to use that have deepened my understanding of teaching and working with young people"

Amba Mellish, HOD, Dakabin SHS

"Excellent PD. Particularly impressed with the delivery method and the relevance of all aspects of the PD. Relaxed but professional atmosphere throughout the entire PD. I found the PD very motivating."

Rick, Deputy Principal, Bundaberg SHS

"This was one of the most empowering Professional Learning opportunities that I have ever been part of."

Dom Pearce, HOD, Deception Bay SHS

"I use Reboot in my classroom. I use it in my planning every day. I've had a huge change for the better with my students. Reboot changed the lives of my students, thank you. Please I'd encourage all schools to implement this program - life changing. I now coach my year 3 team in Reboot."

Keree Brodie, Teacher, Deception Bay North SS

"Excellent training, I have done many workshops on trauma/attachment and quite often leave understanding theory but not confident to put it into practice. This workshop gave me strategies and confidence to practice and therefore develop."

Kay, Maryborough Base Hospital
